Student Software Buttons

Once logged in, the software is designed for students to work at their own pace. The following buttons provide guidance to students while working through the software.

The screenshot shows the top navigation bar of the software interface. It includes a dark blue header with the text "MODULE: 1 UNIT: 2 - Graphs of Functions" on the left, a search icon and "GLOSSARY" in the center, and "HELP" and "Hi, Test Student LOG OUT" on the right. Below this is a teal bar with "< BACK TO HOME" on the left, "SECTION: 1" in the center, and "START PROBLEMS >" on the right. The main content area features a white box on the left with the text "Lesson: Graphs of Functions" and a white box on the right titled "Additional Resources" containing a bullet point "• Check for Understanding". To the right of the main content are four stacked buttons: a teal "START PROBLEMS >" button, a dark blue "GLOSSARY" button with a search icon, a blue calculator icon button, a dark blue "HELP" button, and a dark blue "LOG OUT" button.

- Start Problems allows you to start problems in the software
- Glossary allows you to launch a glossary search
- Instructional Calculator allows you to launch a calculator
- Help allows you to search the software's help
- Log Out allows you to exit the software

Student Software Buttons Within a Problem

- Step by Step will help you move through the problem in steps
- Hints are available throughout the software by choosing the Hint button
- I'm done is clicked when the student has finished the problem
- Go to Problem is available when you are within Step by Step and returns you to the problem
- Home allows you to return to the Table of Contents
- Lesson allows you to return to the Lesson

Troubleshooting

- Review the troubleshooting tips on the Carnegie Learning technical support page: <http://www.carnegielearning.com/resources-support/tech-support/troubleshooting/>
- Verify that all of your browser and plug-in settings are up-to-date by visiting the System Requirements page: <http://www.carnegielearning.com/resources-support/tech-support/system-requirements/>
- You can also verify your installation of Java by going to <http://www.java.com> and clicking “Do I have Java?”
- Clearing the Java cache, browser cache, and disabling pop-up blocking can correct many issues. Conduct a Google search to find directions for your specific operating system and browser to perform these tasks
 - Sample search: how to clear java cache Windows 7
